From: Gregory P. Brown, M.D., Prof. Corp.
RE: non-clinical fee structure

This fee structure is effective as of 1/7/2017.

It is for all medico-legal, forensic psychiatric, psychiatric expert, and/or independent medical examination type evaluations. These evaluations are not performed on a lien basis to prevent allegations of bias when in the courtroom setting. Treatment is not provided to any cases which are seen for one of the above types of evaluation to prevent dual role issues.

Lien treatment cases may be billed per the treatment billing schedule. However, deposition time and court time on these cases are billed at the rates listed in this notice.

Hourly rate evaluations:

- \$625/ hour: file review, interview, MSE, report preparation, collateral interviews, discussions with legal team, research, preparation for depositions or court testimony, observation of opposing expert, and deposition review.
- One hour charge for no show or late cancel [less than 48 hours] for any evaluation
- Deposition testimony for any matter: \$1000/hour
- Court testimony, including evidentiary hearings, medical board hearings, for any matter: \$1200/hour in half day increments

Fixed rate evaluation [includes report, but does not include any form of testimony]:

- Guardianship evaluations [person and/or estate]: \$2000 flat fee

A non-refundable retainer of \$2000 is required to open a case file, unless otherwise negotiated. Flat rate evaluations noted above must be paid in full prior to opening a case file.

Please date, print and sign your name to acknowledge receiving and agreeing to this fee schedule.
